Dan
Thanks for your prompt response. Designating it as municipal parking has all the earmarks of an inappropriate use of town property, given the limited access that Steve alluded to in his email.

In addition, I have photos during Irene that document the flooding of the ball field. I'm sure it was worse during Sandy. To pave it over will be an environmental and aesthetic travesty, as it is part of the tidal flood plain, and paving it over may have a negative impact on adjoining properties and access to the trolley trail and West Point Road during and after rising/receding flood waters.

Hello Dan

We've learned that our worst fears were well founded. The town has not told us the truth about their plans to use West Point Ball Field for Legacy Theater parking. This ball field can and should be part our Stony Creek's open space, and not given over to a private entity using tax

dollars. Please convey our sentiments to Mr. Aniskovich in his appearance at the next Stony Creek Association meeting.

Hi Jerry,

Janice Plaziak, the Town Engineer, says that the project was initiated by the Rec Department and only involved the removal of the fence and placing boulders along the edge of the parking area. I suspect that they decided that the narrow gate structure was unnecessarily restricting.

Hi Bill

It's been a long time since last we spoke.

I followed your presentation on Costco. And the attempts by Jamie to stack the IW membership.

On another note, there is concern in the Creek about the West Point ball park. Parks are public open space and the taking down of the fence is an ominous sign that there is another use afoot.

Can the BLT buy a public park to preserve it? I know it sounds bizarre but it is a form of open space and along the trolley trail to boot.

Best

Jerry
